

Geckolighting® LED Tubes

Geckolighting® LED Tubes. High output LED replacement for standard fluorescent tubes.

Note: **Ballast must be by-passed** prior to installation (saving additional energy and maintenance costs). They are an ideal replacement for existing commercial and domestic fluorescent fittings. Economical LED technology not only reduces power consumption, but eliminates UV, Mercury and other toxic hazards.

Standard colour options of Cool White (6000k), Neutral White (4500k) or Warm White (3000k). Other colour options are available on order.
